

The Incon Lighting LED post top retrofit lamp is a convenient and easy to install energy saving solution for acorn street lights, globe fixtures and some large size bollards. Incon's LED retrofit lamp utilizes a premium Sunon internal fan to help dissipate heat, ensuring reliable performance in a variety of applications. The Post Top retrofit lamp offers improved quality of light compared to traditional high pressure sodium (HPS) and metal halide (MH) lamps and has a color temperature of 5000K.

All our HID to LED retrofits are backed by an iron-clad 5 year warranty.

*Note. The 100W model comes with an external LED driver that must be mounted inside the pole.

Not for use with dimmers, electronic switches or remote controls
